

Spectator seating seat pads

3366055XAA

Details

Our spectator seating units come with either lacquered timber seats (indoor units) or phenolic coated ply seats (outdoor units). The seats can be made more comfortable for your spectators with our seat pads.

The polyester canvas covers are soft and warm to the touch with all the benefits of a canvas appearance but as the fabric is 100% polyester it is wipe clean and weather-proof. We offer polyester canvas in a range of 12 colours from stock - [polyester canvas colour chart](#).

Supplied in sets of 3 pads to suit one seating module (large, medium or small). A set of 9 pads - one set of each of large, medium and small are needed to suit a full set of spectator seating.

The pads comprise:

- resilient non-absorbent PU foam inner
- 50mm thick foam pad
- polyester canvas zipped cover (for easy replacement)
- available in a range of 12 colours - [polyester canvas colour chart](#)
- held in place by the underside of anti-slip high-grip fabric
