# "Game" portable basketball goal

## Details

The "Game" basketball hoop and stand – a full size unit with telescopic height adjustment system.

Ideal for youth players and senior play alike; the unit includes a telescopic pole design that allows the height of the
backboard and ring to be adjusted between 5' (1.5m) to official height of 10' (3.05m).

Height adjustment is achieved using a triangular nut and screw system that secures the poles in place.

Features:

- The "Game" unit includes an acrylic backboard measuring 110 x 75cm with red trim and shooters square.
- For added safety the unit includes backboard padding on the base of the board. The model includes an 18” (45cm) steel ring and a white 12-loop nylon net, suitable for full size basketballs.
- The backboard and ring are set on a sturdy 3-piece steel pole with pole padding included as standard for added player protection during play.

The unit includes a moulded base that requires water or sand (NOT INCLUDED) for stability when is use – with two wheels included for easy movement.

The "Game" unit is approved by Basketball England and therefore is complete with a Basketball England logo.

***PLEASE NOTE:*** These units are sold INDIVIDUALLY and NOT in pairs.
