# AirRoll

240AR0XX12

## Details

Continental's AirRoll handspring trainers are inflatable training devices to assist in the learing of front and back handsprings.

More advanced gymnasts can use the AirRolls to train their rebound and balance.

AirRolls also provide huge opportunities for fun and play for younger children in gym parties.

Available in 3 size options, all the AirRolls are 1.2m long:

- 0.6m diameter - BLUE - for users up to 1.2m tall
- 0.75m diameter - YELLOW - for users 1.2m to 1.45m tall
- 0.9m diameter - RED - for users over 1.45m tall

AirRolls are NOT supplied with a blower as standard. A blower from one of Continental's AirTracks can be used or a Hitachi / Hikoki or an OV10 higher pressure blower must be purchased separately
