Impulse IF93 Rotary Calf

Details

Impulse IF93 Rotary Calf machine

The Rotarty Calf Machine is ideal for strengthening calf muscles whilst also providing a wider range of movement than a calf press machine to facilitate stretching and strengthening of the calf

This calf machine is specifically designed for entry level studios and commercial gyms and offers a complete functional package that is easy to maintain.

PLEASE NOTE: This item is delivered flat-packed and requires some self-assembly. Please contact us if you require a cost for installation and commissioning in your facility
