Impulse IF93 Seated Row

Details

Impulse IF93 Seated Row Machine

The seated row allows users to build bigger latissimus dorsi, biceps and deltoid muscles from a comfortable seated position.

The seated row machine is specifically designed for entry level studios and commercial gyms and offers a complete functional package that is easy to maintain.

The specially designed pads have different angles to allow them to suit different users to target muscles with greater effect through a full range of motion.

Key Features

- Easily work out back, shoulder, and arm muscles
- TPU wrapped pedals for extra foot support
- Can be used with a single arm or in a dual motion
- Adjustable chest pad to suit users of different heights
- Ergonomically designed seat pad provides maximum comfort during training

PLEASE NOTE: This item is delivered flat-packed and requires some self-assembly. Please contact us if you require a cost for installation and commissioning in your facility
