

# Horizontal mat trolley - SMALL

## Details

Horizontal mat trolley with strong swivel castors. Manufactured from epoxy powder coated steel with a lacquered MDF base.

The steel frame features rounded corners to reduce the risk of damage to ankles or walls from accidental collisions.

Suitable for all mats that are suitable for storage horizontally or vertically

This SMALL version is designed for mats up to 1.2m x 0.9m (4' x 3') in size - typically primary school PE mats
