

Horizontal mat trolley - LARGE

Details

Horizontal mat trolley with strong swivel castors. Manufactured from epoxy powder coated steel with a lacquered MDF base.

The steel frame features rounded corners to reduce the risk of damage to ankles or walls from accidental collisions.

Suitable for all mats that are suitable for storage horizontally or vertically

This LARGE version is designed for mats up to a maximum of 2m x 1.2m in size to suit standard metric and imperial size large PE mats. The trolley suits both of these sizes of mats:

- 1.8m x 1.2m (6' x 4') in size - typically secondary school PE mats
- 2m x 1m in size - typical gym and fitness mats and multi-purpose judo/gym/wrestling mats
