

Adjustable poles

Z250008X

Details

Continental Sports offers two climbing frames that have a frame option called "Adjustable Poles". These poles can be moved up and down a series of locating holes to position the poles at suitable heights for climbing, vaulting, pull-ups and other activities.

The frames are:

- Two-in-one climbing frame - "Adjustable Poles" frame design includes 3 poles
- Steel Foldaway - "Adjustable Poles" frame design includes 2 poles

The adjustable poles to suit the two-on-one are long and the adjustable poles to suit the Foldaway are short

Poles require a pair of Adjustable Pole Pins (sold separately) to lock the poles securely into position

Replacement adjustable poles are sold INDIVIDUALLY

SKU	Options	Available Colours
