

# Netting storage envelope / pouch digital printing

## Details

As standard we offer 28 different PVC colours for netting storage envelopes and pouches.

We can also provide full colour digitally printed PVC panels on those storage envelopes and pouches to provide branding opportunities.

The price depends on the size and quantity of printed panels so please contact us with your specific requirements. As standard we offer three options:

- **Small banner** - up to 800mm x 800mm - ideal for a square aspect ratio logo - one or two work well on a double cricket bay storage envelope
- **Large banner** - up to 800mm x 2000mm - ideal for a rectangular aspect ratio logo or strapline - one works well on a double cricket bay storage envelope
- **Fully digitally printed** - the entire envelope is printed on the front - an area approximately 1.1m x 7.8m

We can print anything you can provide in digital format including:

- Logos
- Straplines
- Inspirational and motivational phrases
- Full colour photographs
- Icons
- Sporting silhouettes

We will require you to provide a vector PDF digital image file of the artwork you require as we do not provide any graphic design service. The image you provide must include the background colour your require as the printing is undertaken onto white PVC. We will provide exact dimensions and a template to suit the dimensions of your storage envelope and requirements.
