FIH Class 2 Match hockey goals

Details

The Match Hockey Goal has been awarded the FIH Quality Class 2 for Hockey Goals and meets BS EN 750.

Features:

Regulation Size 3.66x2.14mm Match Hockey Goals

Uprights and crossbars have a 7mm thick reinforced front wall to prevent hockey ball damage.

Specially designed 50.8mm diameter back tubes allow the net to hang freely to meet FIH specifications and eliminate ball rebound.

"Quick Fit" net attached with Tough Nylon Net Clips on Uprights and Crossbar and interweaved Ø19mm Pre-Galvanised Steel Tubes on Sidebars and Backbar.

The front of the goal to the rear of the wheel measures 1632mm.

Meets BS EN 750 and FIH Quality Class 2 for Hockey Goals

Nets are INCLUDED - 3mm thick polyethylene hockey net specifically designed for the Match Hockey Goals - 3.7m x 1.7m x 1.3m in 45mm blue mesh with fully selvedged edges and a Ø6mm headline rope.

Specification:

- Size 3.66m x 2.14m.
- Uprights & Crossbars made from 75mm x 50mm reinforced aluminium with 7mm thick front face.
- Fully welded corner joints provide superior strength and added safety.
- 2 puncture proof cellular rubber wheels allowing for ease of manoeuvrability.
- 460mm high reinforced aluminium backboard panels with extra thick impact absorbent noise reducing carpet on all inside faces.
- STST Eyebolts fitted to wheels for attachment of ground anchor.

PLEASE NOTE: This is a supply only item and requires some basic self-assembly.

These goals are NOT self-weighted and must be secured when in use. They can be secured by securing them to a solid floor or wall behind the goals using the integral eyebolts fixed adjacent to the wheels, or by fixing them to separate counterbalance weights. An optional weight kit is available to modify the goals to make them self-weighted so they become safe to use without additional anchoring.
