EasySAM 225

Details

The NEW Schelde Sports EasySAM 225 provides a commercial backstop with a similar professional experience as the full SAM range but at a keener price point.

Full base and frame padding with padding to the upper beam is included

Featuring market leading safety glass laminated matchplay size backboard with bolt on board padding

Including a 180 degree dunk ring and anti-whip net

The SAM 225 provides a projection of 225cm from the front of the unit to the backbaord when in the senior ring height play position - this provides a 1m run-off between the baseline and the front of the padded base unit with a standard 1.2m projection of the board into the court.

The unit requires a floor anchor to ensure no risk of any toppling under extreme dunking to comply with FIBA regulations. This unit is designed for NO MORE THAN ONE PERSON DUNKING ON THE RING AT ONE TIME

The unit is height adjustable providing ring heights of:

- Senior - 3.05m (10')
- Mini EU - 2.6m (8' 6")
- Mini USA - 2.43m (8')
- Junior USA - 1.83m (6')
