POSITION: Installation Engineer / Fitter
JOB TYPE: Full Time, Permanent.
LOCATION: Based in Huddersfield, operating throughout the UK.
SALARY: Subject to level of experience.

INTRODUCTION:

Continental Sports Ltd is a third-generation, family owned business located in Huddersfield, West Yorkshire.

We manufacture, supply, install and maintain equipment for sports halls, physical education, gymnastics, trampolining (including trampoline parks) and changing rooms.

We currently have an opportunity for an Installation Engineer to join our team with immediate start. The successful candidate will develop a knowledge of installing our equipment by working alongside experienced engineers in the field.

THE ROLE:

The successful candidate will be required to fulfill the following duties and responsibilities:

- Install equipment in facilities throughout the UK conforming to our Quality Management Standard ISO 9001:2015.
- Organise the loading of equipment and tools for each project.
- Return important project information to Management via written documents, email and smartphone applications.
- Provide professional customer service to our clients.
- Comply with company Risk Assessments & Method Statements.
- Comply with company Policies and Procedures.
- Maintain dignity and respect whilst communicating and working with management, team colleagues and clients.

Due to the nature of this role you will be expected to work away from home extensively Monday to Friday and occasionally on weekends depending on the size and location of the project. A vehicle is supplied for travel to and from sites. You will be provided with hotel accommodation and will receive a living allowance whilst staying away.

Holiday Entitlement: 33 days per year. (Including Bank Holidays)

Contractual Hours: 37 per week. (You will be required to work a reasonable amount of overtime)

In order to be considered for the position, candidates should be experienced in following key skills and attributes:

- Follow installation instructions and understand technical drawings.
- Operating power tools.
- Working safely at height using mobile towers and MEWPs
- Working on a construction site environment.
- Hold a full UK driving licence.
- Practically and technically competent in problem solving, using your own initiative.
- Have a positive "can do" attitude, with determination to complete projects from start to finish efficiently.
- PASMA, SSSTS or CITB, IPAF Certificates. (Training courses can be provided to obtain these qualifications).

To be considered for this excellent opportunity, please apply by submitting your CV to:
