PERFORMANCE PLUS TREADMILL

Groundbreaking design and breathtaking performance combine for a treadmill that feels, functions and lasts unlike any other.

Our exceptional treadmill sets a new standard with a shock-absorbing slat-belt and a high-efficiency drive that make even the most intense runs feel comfortable, solid and smooth, outlasting traditional treadmills in the most intense environments. Despite this incredible evolution of technology, service and maintenance have never been easier.

Unique belt and drive combination lasts for up to 100,000 miles with minimum maintenance, while cast-aluminum endcaps and a robust frame withstand years of heavy use.

Easily removable side rails, a front-accessible component cover and built-in casters streamline maintenance and service, keeping it ready for your most demanding members.

2.2 kW Synchronous Response Drive reduces energy use and offers ultra-smooth runs up to 26 km/h / 16 mph. Pure Stride Cushioning absorbs shock, a lift motor provides 20% incline, and an expanded running surface lets members run with unmatched intensity.
