PERFORMANCE

RECUMBENT CYCLE

Make low-impact cardio workouts accessible to everyone with our ultra-durable recumbent cycle.

Our Performance Recumbent Cycle is ideal for heavy use and intense rides in the world's finest fitness facilities. A recumbent design with an ergonomic seat and back distributes weight for superior support, stability and comfort, and the robust components are tested against the most demanding benchmarks to withstand intense environments.

Custom-molded handlebars are comfortably contoured to fit the hand, while intuitive one-handed adjustment fine-tunes the seat to users of different heights. Includes oversized self-balancing pedals for quick starts and Ergo Form seat and back pad for comfort.

Conveniently placed controls provide tactile feedback, and low step-over height offers easy entry and exit. Includes bottle holder for on-hand hydration.

Top-down leveling, an integrated transport handle and a three-piece crank with forged arms and integrated pullers streamline service and maintenance.
