### **Maintenance Technician (Multiple positions available)**

Salary negotiable depending upon experience

Full Time (37 hours per week) + overtime, Permanent.

Our factory is based in Huddersfield, operations will be undertaken throughout the UK.

These positions are suitable for individuals living in Yorkshire, Lancashire and the North of England.

Continental Sports: Established 57 years ago, we manufacture, supply, install and maintain equipment for sports halls, physical education, gymnastics, trampolining (including trampoline parks) and changing rooms.

The exciting opportunity has arisen where Continental is currently looking for additional Maintenance Technicians to join our maintenance team who can help with continued demand and improvements to our services.

The successful candidate will need to meet the following criteria:

#### **Key Responsibilities:**

- Communicate with clients in order to finalise a working schedule that accommodates efficient working practices.
- Carry out defect identification & elimination for minor repairs of equipment.
- Determine defect identification & method of elimination for major repairs of equipment.
- Create a detailed report of each product inspected.
- Consult technical documentation such as drawings, manuals and standards in order to inspect and maintain equipment.
- To provide support, when required to maintenance and installation technicians when required.
- Correctly enter and maintain data in our maintenance calendar and databases.
- Maintain a high level of service and continuity for clients.

#### **Key Skills:**

- Be practical and technically competent, articulate, enthusiastic and have excellent attention to detail.
- The ability to work independently or as part of a team.
- Operation of power tools.
- Working safely at height using mobile towers and MEWPs
- PASMA, SSSTS or CITB Certified. (Training courses can be provided to obtain these qualifications).
- Willingness to have DBS checks undertaken.
- Working in a construction site environment (occasionally).

- Hold a full UK driving licence.
- Have a positive “can do” attitude.
- Work well under pressure, managing a high workload & multiple deadlines simultaneously.
- Good telephone manner.
- Good written and verbal communication skills.
- Reasonable IT skills with Microsoft office and Google Workspace applications.

Continuous training will be provided to ensure there is a full understanding of the maintenance process.
