Agility mats - Canvas

Details

Agility mats are 50mm thick chipfoam mats with a soft touch cotton canvas cover (also available with a wipe-clean PVC cover - [click here for details](#)). Both types have anti-slip bases.

The cotton canvas cover is available in blue only and provides a warmer, softer feel than a PVC cover so is ideally suited to barefoot activities such as gymnastics.

These mats are ideal as runway mats for PE exercises such as tumbling or rolling and are recommended for placing on top of a landing area made up of safety mats to prevent the safety mats from separating during a landing.

These mats can be rolled for storage. All agility mats are manufactured with fire retardant foam.
