## CSCS CARD UNAVAILABILITY

### Background

On 31st March 2017 CSCS scrapped all CRO (Construction Related Occupation) cards : [Construction Skills Certification Scheme | Official CSCS Website - CRO card withdrawal](#)

As of that date 100% of Continental Sports Ltd's site operatives had CSCS cards, but were prevented from renewing them by this change to the CSCS rules

All CSCS cards now require a construction related NVQ to exist for a card to be issued. There is no NVQ for sports or gym equipment installation so our operatives are unable to obtain a relevant construction related NVQ and therefore are unable to obtain a CSCS card.

CSCS has confirmed that Build UK instructed CSCS not to consider the installation of sports and gym equipment as a construction related activity and therefore they are unable to issue CSCS cards to Continental Sports Ltd's site operatives.

A list of all occupations that used to have CRO cards available and that have been removed from the CSCS scheme is available here: [Construction Skills Certification Scheme | Official CSCS Website - Occupations removed](#) - this list includes the following that are relevant to our business:

- Gym & Sports Equipment Installer
- Gaming and Leisure Equipment Installer
- Diving Board & Sports Equipment Installer
- Sport Hall Court Marker
- Sports Floor Installer

Some customers have requested that we obtain labourer cards for our workforce as a "workaround" but that is contrary to CSCS rules and would prevent our operatives from carrying out anything other than labouring on site. They would be at risk of being red carded and banned from site so this is not a feasible workaround.

### Confirmation from CSCS

As some of our customers are not aware of this change in rules, or operate under a blanket "mandatory CSCS" restriction, we have received the email confirmation overleaf from the Chief Executive Officer of CSCS confirming that our operatives correctly do not hold CSCS cards

**From:** Graham Wren [mailto:[GrahamWren@cscs.co.uk](mailto:GrahamWren@cscs.co.uk)]  
**Sent:** 10 June 2021 12:31  
**To:** Ellen Rothery <[ellen@contisports.co.uk](mailto:ellen@contisports.co.uk)>  
**Subject:** RE: CSCS card

Dear Ellen,

Thank you for your recent email.

I understand the frustration that you and your team are experiencing but CSCS's position on this matter has not changed.

As referred to in my email dated 16th January 2017 CSCS cards are only issued to those working in constructed related occupations. In the same month the employer association Build UK advised the installation of gym or sports equipment is not classed as a construction related occupation and as such your operatives would not be required to hold a CSCS card.

In the intervening period a lot of work has taken place within the industry to raise the profile of non-construction related workers who would not be required to hold a card. Build UK have gone as far to include this guidance within their [site access flow chart](#) and CSCS has advertised this development heavily in the [construction media](#).

We also have a webpage dedicated to [non-construction related occupations](#). Here you will find a link to the occupations confirmed as non-construction related. This page can be used to confirm with sites that a card is not required for gym or sports equipment installation.

In previous correspondence you mentioned several main contractors who are members of Build UK. If the same contactors are insisting on your workforce holding a CSCS card then this needs to be raised directly with Build UK. Build UK have a strong record of resolving issues with their members swiftly.

The idea of introducing a card based on health & safety alone is not something that we can consider. CSCS is bound by the [requirements of the Construction Leadership Council \(CLC\)](#) and in 2015 the CLC announced that all cards are to be issued on the basis of the applicant achieving the appropriate qualification (usually an NVQ) for their occupation alongside a recognised health and safety test. On this basis the scenario set out in your email does not meet the CLC's requirements and a card cannot be issued. However, if your operatives are involved in the installation of sports flooring surfaces a card could be issued provided the NVQ in Sports and Play surfaces is achieved.

I hope the details contained in this response help to clarify CSCS's position on this issue.

Kind Regards,

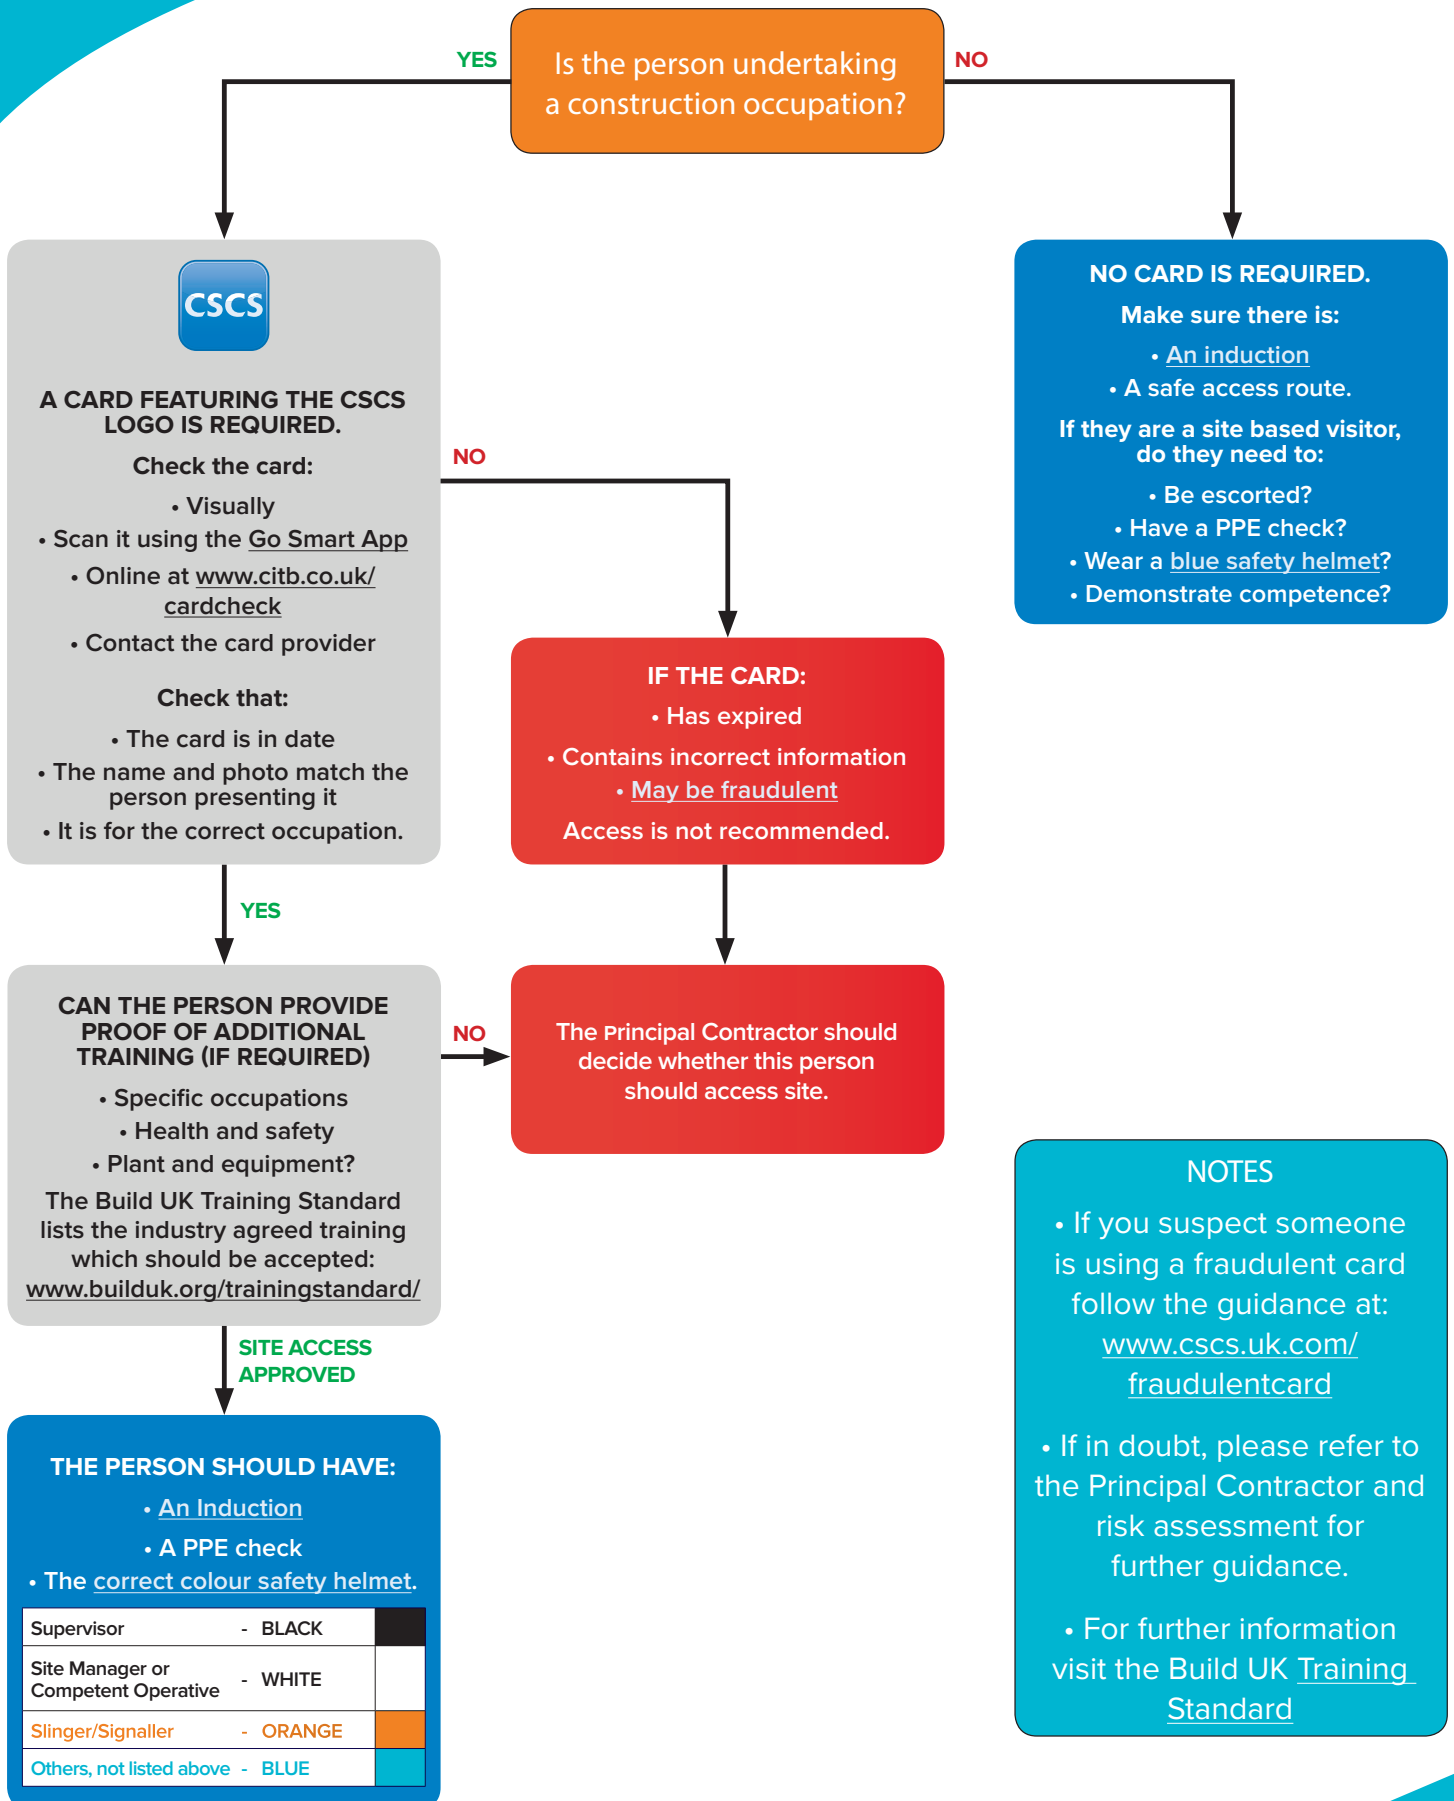

Graham Wren

Chief Executive  
Construction Skills Certification Scheme

CSCS has provided a Site Access Flowchart confirming that if a person on a construction site is not undertaking a construction occupation then a CSCS card is not required. We have appended that flowchart and supporting explanations below:

# Site Access Flowchart

## Background

The Construction Leadership Council (CLC) agreed that from January 2015 the industry, including trade associations, contractors, clients, and government should specify and promote card schemes carrying the CSCS logo with no equivalents accepted.

Build UK supports the CLC decision and its members have agreed to consistently implement its requirements which are set out in this standard.

## Requirements of the Construction (Design and Management) Regulations 2015

It is a requirement under the *Construction (Design and Management) Regulations 2015 (CDM 2015)* for contractors to ensure any individual they employ or appoint to work on a construction site has the skills, knowledge, training and experience to carry out the work they will be employed to do in a way that secures the health and safety of themselves and others. This should be assessed and managed appropriately to ensure that individuals are undertaking the appropriate occupation at the appropriate level i.e. trainee, skilled, supervisory, managerial.

While the HSE guidance on implementing CDM 2015 states that, *“Sole reliance should not be placed on industry certification cards or similar being presented to them [contractors] as evidence that a worker has the right qualities”*, the guidance makes clear that *“Nationally recognised qualifications (such as National Vocational Qualifications (NVQs) and Scottish Vocational Qualifications (SVQs)) can provide contractors with assurance that the holder has the skills, knowledge, training and experience to carry out the task(s) for which they are appointed”*.

## Application

The CLC decision and card schemes carrying the CSCS logo both relate to construction occupations only. It is recognised that due to the diverse nature of construction projects, there are occasions where a person may need to access site to perform a non-construction occupation or activity e.g. delivery of materials to site, catering staff, security guards, visitors etc. and it is not expected that these individuals will carry a CSCS card. They may however still need to provide evidence that they can carry out their task safely. They may also require a separate risk assessment and additional supervision.

## Additional Training

In addition to a card carrying the CSCS logo individuals may need to have undertaken supplementary training to operate specific machinery, plant, or tools or to carry out certain activities. E.g. a steelwork erector would hold a steel erector card issued by CSCS and if required to use a MEWP would also hold an IPAF or other relevant card to cover this training.

Queries regarding suitable additional training should be directed to the Principle Contractor or relevant trade association.

# Partner Card Scheme Information

The table below displays a list of card schemes permitted to display the CSCS logo and should be accepted when presented on-site. Use this table to confirm the card checking procedures for each scheme.

Card	Construction Industry card scheme	Scheme Administrators	Sector represented	Electronic Card checking available	How to check a card electronically	How to check a card manually
	ACAD Skills Card	Asbestos Control and Abatement Division	Asbestos Analysts and Surveyors Asbestos Removal	Yes	Use a card reader, mobile phone or tablet device with the 'Go Smart' software installed	Phone ACAD on 03333 237 751
card to be added	ARMI Skills Card	Asbestos Removal Contractors Association	Asbestos Removal	Yes	Use a card reader, mobile phone or tablet device with the 'Go Smart' software installed	Phone ARCA on 01283 566467
	Association of Lorry Loader Manufacturers and Importers (ALLMI)	Association of Lorry Loader Manufacturers and Importers (ALLMI)	Lorry Loaders	No	Not Available	Phone ALLMI 08448 584 334
	Assuring Competence in Engineering Construction (ACE)	Engineering Construction Industry Training Board (ECITB)	Engineering construction	No	Not Available	Phone ECITB on 01923 260 000
	Certificate of Competence for Demolition Operatives (CCDO)	National Federation of Demolition Contractors (NFDC)	Demolition	Yes	Use a card reader, mobile phone or tablet device with the 'Go Smart' software installed. 	TTM	LANTRA	Temporary Traffic Management	Yes	Use a card reader, mobile phone or tablet device with the 'Go Smart' software installed	Phone 02476 696 996

## Health and Safety Training Requirements

In addition to recognising card schemes carrying the CSCS logo and the supplementary training to operate specific machinery, plant, or tools, Build UK Contractor Members require additional health and safety training, as specified below, to be undertaken by their directors and those working on their sites including sub-contractors. The awarding body would usually define the renewal period for health and safety training, but this should not exceed every five years.

Job Role	Accepted Health & Safety Training
<p><b>Director</b></p>	<p>Any course which is equivalent to:</p> <p><a href="#">Health and Safety in Construction (Director)</a></p> <p>The following courses will be accepted until 31 March 2018:</p> <ul style="list-style-type: none"> <li>❖ Site Safety Plus Directors Role for Health and Safety</li> <li>❖ IOSH Safety for Executives and Directors</li> <li>❖ IOSH Leading Safely</li> <li>❖ IOSH Directing Safely</li> <li>❖ IOSH Safety for Senior Executives.</li> </ul> <p>From 1 April 2018, courses which align to the standard listed above and have been successfully mapped by CITB will be accepted. Further information will be available shortly.</p>
<p><b>Manager</b></p>	<p>Any course which is equivalent to:</p> <p><a href="#">Health and Safety in Construction (Site Management)</a></p> <p>The following courses will be accepted until 31 March 2018:</p> <ul style="list-style-type: none"> <li>❖ Site Safety Plus Site Management Safety Training Scheme (SMSTS)</li> <li>❖ IOSH Managing Safely in Construction</li> <li>❖ 5 day CISRS Supervisors/ Managers course</li> <li>❖ 5 day CCDO Demolition Manager course and end test</li> <li>❖ Construction Skills Register Site Safety Supervisors.</li> </ul> <p>From 1 April 2018, courses which align to the standard listed above and have been successfully mapped by CITB will be accepted. (continued)	<p><i>Operatives who have completed an S/NVQ Level 2 or 3 or Trailblazer Standard within the last five years and hold the relevant CSCS logo card, will be exempt from this requirement.</i></p> <p><i>Operatives whose qualification was achieved more than five years ago will be required to demonstrate that they have achieved one of the courses listed above.</i></p>
Apprentices	Apprentices who are on industry recognised training programmes are excluded from this requirement if they hold the relevant card carrying the CSCS logo

For further information on mapping a training course to the industry standard, please [contact CITB](#).

## Frequently Asked Questions

Please note that any advice is given in good faith with the aim of providing general guidance on best practice. Build UK and the individuals and organisations responsible for the advice do not accept any liability arising in any way from relying on it. If you require advice on a specific issue, you should seek your own independent professional advice.

### Construction Occupations

#### What is a construction occupation?

For the purpose of the Build UK Training Standard, a construction occupation is defined as one for which a [CSCS card](#), or a card featuring the [CSCS logo](#) can be obtained. Occupations including delivery drivers and security staff are not construction occupations and no card is required to access site.

#### Should work experience participants hold a card featuring the CSCS logo?

No. Only those on site who will be carrying out a construction occupation need to hold a card featuring the CSCS logo. Work experience participants should accompany a skilled operative holding the relevant CSCS logo'd card. Site managers should follow the recommendations for non-construction occupations on the Site Access Flowchart and ensure a risk assessment has been carried out. Further information on managing work experience is available in the [Build UK Work Experience Guide](#).

#### Should international employees hold a card featuring the CSCS logo?

There will be occasions where international visitors are required on site to oversee works and it may not be practical for them to hold a card featuring the CSCS logo. This will have been pre-agreed by the Principal Contractor and site management should refer to the risk assessment developed for this situation. International operatives who attend UK sites regularly and hold international qualifications can apply to [UK Naric](#) to check whether the qualification maps to a UK equivalent. If the qualification maps, the operative will be able to apply for a CSCS card by following the process on the [CSCS website](#).

## Supervision

### **What are the supervision requirements for a lone worker on site?**

The Build UK Training Standard assumes that a supervisor is managing people onsite. A lone worker is carrying out a construction task and will not be a people manager. Where a lone worker is carrying out a task on site for a short period of time, the Principal Contractor would often provide a supervisor to put them to, and/or oversee their work.

### **What is the required supervisor to operative ratio?**

The Build UK Training Standard does not recommend a figure for task supervisor to operative ratio. The Principal Contractor should define the ratio in line with the risk associated with each activity and this will vary depending on for example, the project and tasks being undertaken. The sub-contractor should agree this level of risk with the Principal Contractor prior to work commencing.

**December 2017**
