

**Steelwork notes:**

Suitable support steelwork should be provided approximately 3.5 metres in front and behind, the front face of the basketball board in the play position. There must be a 300mm gap above the steelwork to accommodate the winch & workings. The steelwork installed must be capable of accepting a 254kgs deadweight, at any point along its length and two sections of steel at 1.2 metres centres are necessary.

Before any steelwork is installed please forward design drawings to [drawingoffice@contisports.co.uk](mailto:drawingoffice@contisports.co.uk) for comment / approval.
