

SPORTS COURT LINE MARKINGS

MAINTENANCE

Vinyl floor: Line markings on vinyl floors are not sealed after application. Avoid dragging items over the lines.

Timber floor: Line markings are sealed after application (if required by the flooring manufacturer). The seal protects the lines and will wear over time. The floor should be scrubbed and re-sealed before any signs of wear are showing to the lines.

CLEANING

All line markings paint is compliant with the flooring manufacturer's requirements and floors should be cleaned in accordance with the flooring manufacturer's guidance for cleaning the floor.
