# SET-UP PROGRAMMING

Set-up	
Make sure the scoreboard is powered on	
<p>Connect all the control consoles to each other (the control consoles can be connected in any order). To use the "Stramatel Multisport" application for Android™: download the application on Google Play, and connect the smartphone or the tablet into the USB-socket of the main control console.</p> <p>The "individual fouls/points" control console is only supplied with scoreboards equipped of individual fouls modules. The "24 seconds" control console is supplied with ball possession timers (Model SC24).</p> <p>Cable transmission model or radio controlled model supplied with the cable kit option: connect the 10 metres flexible cable between the control consoles and the wall junction box.</p>	
Press the ON/OFF key until the console displays the welcome screen	
Radio controlled model: the remaining battery charge level is indicated next. If the battery charge is insufficient for the match, power can be supplied by plugging in the power supply supplied.	
The control console will then enter into the last sport programmed. To change the sport or access to the "general configuration" mode (See. "Various configurations" – Page 8): press key <b>27</b> several times.	

Select a sport or a function	
The control console is configured in an undesired sport programme: press key <b>27</b> several times (access to the sport menu).	
Then, select the sport or the function needed with the key number indicated on the console screen.	
Change the sport configuration with key <b>0</b> (see below "Program the parameters of the sports") or play with the backup configuration with key <b>9</b> .	
If you choose to manage the game without Android™ connection, press key <b>0</b> . If you want to use the Android™ connection, press key <b>9</b> (radio-controlled model: the charger must be plugged into the control console).	
Use of Android™ connection: some application buttons (main functions: timers, scores, Individual fouls, etc...) can be locked by pressing key <b>9</b> or unlocked by pressing key <b>0</b> .	

Programme the parameters of the sports	
Each sport has its own configuration (parameters): length of game periods, length of the extra-time periods, number of sets or number of periods, etc... These parameters are saved in memory in case the control console is switched off or a new sport programmed (what makes the use of the console easier in case of several clubs using it).	
The settings of a sport program (Free mode, Basketball...) can be personalized. The new sport program resulting from this personalization can be saved in the control console under any file name and be used any way you wish (up to 10 files can be saved). For example: "Children Basketball", "Senior Handball", "Korfball", "Pelota", etc...	
Choose a sport: the console screen displays the stored configuration for this sport during a few seconds. Press key <b>18</b> to view the data on the console screen longer. Press key <b>18</b> again once this data have been read.	
Change the configuration with key <b>0</b> (see next page) or play with the stored configuration with key <b>9</b> (direct access to the game).	

## Programme the parameters of the sports (contd...)

**To change configuration:** come back to the source configuration of the console in this sport with key **9** or keep the last parameters with key **0** or open a saved file (saved sport programs with personalized settings) with key **1** (if a file has been saved in this sport category).

**Configuration:** answer the various questions displayed on the console screen. For each question, the control console offers the last stored configuration (the data blinks on the console screen):

- enter this answer with key **23**.
- select another answer with keys **0** to **9**.
- programme lengths of time with keys **0** to **9** and enter time with key **23**.

During programming, it is always possible to come back to the previous programming with key **13**.

Save the personalized sport program in a saved file (saved sport programs with personalized settings) with key **0** or open directly the saved sport program with key **9**.

**Save the personalized sport program:** choose one of the saved files with keys **0** and **9** (drop-down list) and enter with key **23**. Bear in mind not to overwrite an existing file.

Enter the name of the file you want to save by using SMS mode:

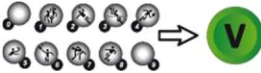

- Choose the name by using keys **0** to **9** (14 characters maximum).
- Change the character previously entered with key **13**.
- Change mode (Capital letters / Small letters / Numbers) with key **21**

Enter the name of the saved file with key **23**

## VARIOUS CONFIGURATIONS

Some general parameters are configurable: the control console language, the display time of the clock on the scoreboard, the transmission mode of the control console (standard radio-controlled model), the display of the basketball led strips.

Access to the "General configuration" mode	
The control console is configured in an undesired sport programme: press key <b>27</b> several times (access to the sport menu).	
Keep key <b>27</b> pressed for 1 second until the console displays the "Configuration Language" screen.	
Choose the parameter you need to change with keys <b>0</b> and <b>9</b> (drop-down list).	
Access to the configuration of the parameter needed with key <b>23</b> .	
Language of the control console	
The control console is programmable in different languages.	
Access to the configuration of this mode as described previously. Select the language needed with the key number indicated on the console screen.	
Display of the clock on the scoreboard	
The scoreboard is equipped with a clock which shows the day time as long as a sport has not been programmed on the control console. The clock can be switched off automatically overnight.	
Access to the configuration of this mode as described previously.	
Programme the extinction and display time-slots of the clock: <ul style="list-style-type: none"> <li>• Programme the hours with keys <b>0</b> to <b>9</b> and enter the choice with key <b>23</b>.</li> <li>• Programme the minutes the same way and enter the choice with key <b>23</b>.</li> </ul>	
Control console transmission mode (standard radio-controlled model)	
The standard radio-controlled console is equipped with 6 different pre-set transmission frequencies (channels) and can also be used in cable transmission mode.	
Access to the configuration of this mode as described previously.	
Choose a different radio channel with keys <b>0</b> to <b>5</b> or choose cable transmission mode with key <b>9</b> (the radio transmission mode is off).	
Basketball – LED strip display at the end of the ball possession time (24s)	
If the scoreboard is used with ball possession timers (Model SC24) and led-strips, the operation mode of the led strips can be configured on the control console.	
Access to the configuration of this mode (24s) as described previously.	
With the key number indicated on the console screen: choose the operation mode of the led strips when the ball possession time expires. <i>In all cases, the red led strips light up to indicate the end of the game periods.</i>	
Basketball – Steady of blinking LED-strip display (Ledstrip)	
If the scoreboard is used with ball possession timers (Model SC24) and led-strips, the display mode of the led strips can be configured on the control console.	
Access to the configuration of this mode (Ledstrip) as described previously. Choose if the led strips should light-up steady (key <b>0</b> ) or blink (key <b>9</b> ).	

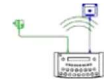

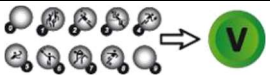

<b>Global reset of the console parameters</b>	
<p>The control console can be completely reset (source configuration in all sports).</p> <p>Access to the configuration of this mode (Global Reset) as described previously.</p> <p>Reset the parameters (source parameters) with key <b>9</b>.</p>	

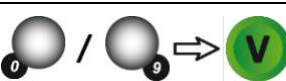

<b>Updates for new sports rules (USB key)</b>	
<p>In case of new sports rules, the programmes of the main control console and of the "individual fouls/points" control console can be updated using a simple USB key.</p> <p>In this case, a specific instruction for programme update will be provided with the USB key.</p>	

## SCOREBOARD CLOCK

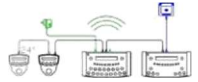

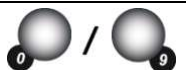

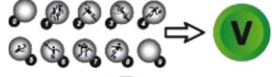

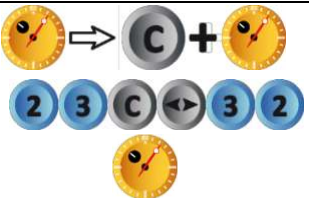

The scoreboard is equipped with a clock which shows the day time as long as a sport has not been programmed on the control console. The clock can be switched off automatically for the night during a programmed time-slot (See. "Display of the clock on the scoreboard"). If the scoreboard is equipped as an option with a DCF or GPS antenna, the day time is reset automatically.

<b>Clock setting</b>	
<p>Make sure the scoreboard is powered and turn the main control console on. <i>The other control consoles are not used in this mode.</i></p>	
<p>Press the ON/OFF key until the console displays the welcome screen.</p>	
<p>The control console is configured in an undesired sport programme: press key <b>27</b> several times (access to the sport menu).</p>	
<p>Select the "clock setting" mode with key <b>18</b>.</p>	
<p>Programme the hours with keys <b>0</b> to <b>9</b> and enter your choice with key <b>23</b>. Programme the minutes the same way and enter your choice with key <b>23</b>.</p>	
<p>Turn off the control console by keeping key ON/OFF pressed and plug it in for recharge. <i>The time is permanently saved in memory in the scoreboard in case of a power failure.</i></p>	

## SAVED FILES – PERSONALISED SPORT PROGRAM SETTINGS

<b>Open a saved sport program (saved sport programs with personalized settings)</b>	
<p>If needed, connect the control consoles to each other (according to the sport discipline).</p>	
<p>Press the ON/OFF key until the console displays the welcome screen.</p>	
<p>If a sport discipline has not been selected in the control console yet: select the "Saved files" mode with key <b>17</b>.</p>	
<p>Select the saved file needed with keys <b>0</b> and <b>9</b> (drop-down list) and enter with key <b>23</b>. The sport discipline is automatically selected. The console screen displays the stored configuration during a few seconds.</p>	
<p>Change the configuration with key <b>0</b> or play with the stored configuration with key <b>9</b>.</p>	

# BASKETBALL

Set-up	
Connect all the control consoles to each other (the control consoles can be connected in any order). The "Individual fouls/points" control console is only supplied with scoreboards equipped with individual fouls modules.	
Press the ON/OFF key until the console displays the welcome screen.	
Programming	
Select the "Basketball" mode with key 1.	
The console screen displays the stored configuration during a few seconds: length of the pre-match period, number and length of game periods, length of the extra-time periods, length of the time-outs. Press key 18 to view the data on the console screen longer.	
Change the configuration with key 0 or play with the stored configuration with key 9.	
<b>To change configuration:</b> answer the various questions displayed on the console screen with keys 0 to 9, and enter your answer with key 23.	
During programming, it is always possible to come back to the previous programming with key 13.	
Pre-match timer / Game timer	
Some of the timer features can also be controlled by the separate timer control console (See. "Functions of the separate timer control console").	
Start or stop the pre-match timer with key 18.	
On the scoreboard: display the clock instead of the pre-match timer with key 21 ('c' is displayed on the console screen)	
If needed, stop the pre-match timer to charge the 1st game period with key 28.	
Start or stop the game timer with key 18.	
Display on the console screen the elapsed game time instead of the remaining time and vice versa with key 21.	
End of the first game periods: the rest timer starts automatically in count-up mode.  If the game timer was not stopped quick enough at the end of the period: come back to the game timer by pressing keys 16 and 18 simultaneously.	
Stop the rest timer and load a new game period or an extra-time period with key 28. <ul style="list-style-type: none"> <li>The number of team fouls goes back to zero (except at extra-time period).</li> <li>The number of time-out requests only reaches zero at half game time and at extra-time periods.</li> </ul>	
End of the last game period and end of each extra-time period: the rest timer does not start automatically. If needed, press key 18	
Correction of the game timer: <ul style="list-style-type: none"> <li>stop the game timer with key 18, then enter in timer correction mode by pressing keys 16 and 18 simultaneously.</li> <li>change the timer: -1min with key 12, -10s with key 14, - 1s with key 16, +1s with key 20, +10s with key 22, +1min with key 24.</li> <li>enter with key 18.</li> </ul>	

<b>Scores</b>	
Add 1, 2 or 3 points with keys <b>10, 12, 14</b> (Home) or keys <b>22, 24, 26</b> (Guests).
