MULTI HEIGHT PRACTICE NET

IMPORTANT - It is imperative that all wall fixed posts are removed from the wall when not in use to prevent injury to users of the hall playing other sports.

1. Attach the wall fixed posts using the supplied thumbscrews
2. Position the intermediate posts along the hall (typically between the badminton courts)
3. Select a net height and extend the telescopic intermediate posts to the relevant height securing in place using the thumbscrews.
4. Suspend the nets from one wall mounted post, over the V-channel in the top of each intermediate post and onto the opposite wall mounted post.
5. If necessary, tighten the net headline using the bottle screw at the end of the net headline
6. To remove the arrangement, reverse the above steps
7. Regularly check all items for wear. If replacements are necessary, contact Continental.

See recommendations in the Continental maintenance manual concerning regular maintenance inspections and reports.
